Non-Soy Full Spectrum Amino Acid Concentrate

All Organic, Full Spectrum Amino Acid Profile

For Organic Livestock Production

Manufactured with:
No soy -- No fish meal -- No corn -- No alfalfa meal

Non Soy Amino Acid Concentrate - a High Energy Protein Concentrate delivering optimum metabolic energy:

Available Mineral Content Exceeds Soy

Has higher balanced amino acid profile than that of 48%, 44%, or 42% soymeal.

Contains much higher available mineral and ash content for delivering the needed energy in diets of all animal species.

Metabolic energy: 1 lb is equivalent to 1.1 lb of 48% soy.
0.5 lb is equivalent to 1 lb of 44% and 42% soymeal.

Non Soy Concentrate will replace all soy meal diets at a 1 to 1 ratio.

ORGANI-ZYM E
Builds Soil Humus And Reclaims Toxic Soils

In G R E D I E N T  S T A T E M E N T
This product contains only certified organic agricultural products or ingredients that
conform to the NOP’s national list of materials acceptable as an Organic Soil Amendment™

ORGANI-ZYM E is a combination of humic and fulvic acids formulated with organic catalysts plus natural occurring organisms and Plant Growth Regulators to build soil humus.

Use:
* Stimulate and nourish soil microorganisms
* Reclaim toxic soils such as alkali and high salts
* Boost nutritional values of all crops
* Loosen hard pan and increase soil aeration, to enhance water retention around root zone.
* Allow soil to absorb and store more nutrients with the primary nutrient (water)
* Enhance crop nutrients to the optimum.

Directions for use: SHAKE WELL BEFORE USING
For large surface areas mix 1 part ORGANI-ZYME to 20 parts water and broadcast at the recommended rate. For best performance incorporate ORGANI-ZYME 2 weeks prior planting or apply as an early post-emergent (broadcast).

ORGANI-ZYME is safe to humans, animals, and the environment.

NOTE: For Detailed Instructions see GENERAL APPLICATION INSTRUCTIONS

WARNING: Do not use With Post Emergent Herbicides.

If Added to Crop fertilizer or other Amendments contact your ABC representative for directions.

GENERAL APPLICATION INSTRUCTIONS

Alfalfa & Clover Hay
1 quart/acre late fall or early spring and 3 ozs./acre after each cutting at 3” to 8” regrowth.

Pastures
1 quart/acre early spring with fertilizer and 2-3 times during growing season.

Cereal Grains
1 quart/acre with fertilizer.

Flowers & Houseplants
Mix 60 ml. or 2 oz./gallon water. Mist 1 to 2 times weekly

Sugar Beets & Potatoes
1 quart/acre with fertilizer and 8 ozs./acre 2-3 times during growing 6 weeks apart.

Transplant Flowers & Veg
Mix 1 oz. in 1 gallon of water; soak roots & planting holes.

Compost Beds
Mix 1 oz./gallon of water moisten bed well to speed decomposition and improve compost quality.

Recommended Rate and Coverage:

Soil Application:
- Marginal or toxic soils- 2 quarts/acre spring and fall or 1 gallon concentrate per acre or 4 oz/1000 sq. feet or 12 ml/100 sq. feet.
- Good Soils- 1 quart/acre early spring 3ozs./acre 2-3 times during growing season or as needed.

Foliation Application:
- Mix 1 oz in 1 gallon of water; soak roots & planting holes.

FROM THE C.E.O.

We have always applied common sense to animal health by reducing obvious stresses and supplying the body with what it needs to repair and protect itself. We concentrate on the cause of a disease, not the symptom, and strive for maximum animal health with natural organic nutrients. Each individual farm within itself is a research farm, and we have over 44 years of research on thousands of farms. Results are the reasons we are in business today and will be tomorrow. We are looking forward to serving you so that animal husbandry is enjoyable and profitable. Try our products and observe the difference.
