

IONS™

Proving to be the #1
Daily electrolyte!

Mineral Supplement for All Classes of Equine

Ions™ supplements your horse with balanced electrolytes to help reduce imbalances which may be caused by poor quality water or feeds. Sodium, chloride, potassium, calcium and magnesium are the primary electrolytes (ions). When ions are balanced, they help to increase water consumption and retention.

Ions™ is recommended in your horse's diet during heavy training and warm weather. **Ions™** can be top dressed on regular feed daily, per label instructions.

IONS™
K - Ca - Na - Mg

Mineral Supplement for All Classes of Equine

GUARANTEED ANALYSIS

Calcium (Ca) (min).....	0.50 %	Sodium (Na) (max).....	1.25 %
Calcium (Ca) (max).....	1.00 %	Potassium (K) (min).....	3.00 %
Sodium (Na) (min).....	0.75 %	Magnesium (Mg) (min).....	0.20 %
